

Sorting results

Your names:

Your algorithm

Describe your technique as carefully and precisely as you can, so that other humans could reproduce it.

Your comparisons

Write down and number each comparison you make, with the label of the **lighter object on the left** (example: “G < C”).

(1)

(2)

(3)

Final order

Write down the ordering as a series of less-than statements, as in “D < F < H < B ...”
