

Networking

We discussed network architecture, especially fully-connected vs. the bus topology (book section 15.1, page 489).

Then we reviewed technologies such as IP addresses (IPv4 and IPv6), and domain names (DNS). See the following videos.

- What is an IP address? (3:07)
- DNS resolution (6:42)
- Running out of IP addresses (8:24)
- [Traceroute reveals Star Wars Episode IV 'crawl' text](#) • [The Register](#)
