

Quiz 2

15 December 2011

Mark and describe all the errors in the following C program.

```
#include <stdoi.h>
int main()
{
    int quiz
    printf("Enter score: ");
    scanf("%f", quiz);
    float average = quiz / 40.0;
    printf("Average is %1f/n"), average;
    return 0;
}
```

Determine the exact output of the following C program.

```
#include <stdio.h>
int main()
{
    int a = 2, b = 3, c = 4;
    if( a < b )
    {
        printf("A");
        if( a+b < c )
        {
            printf("B");
        }
        else if( b < c )
        {
            printf("C");
        }
        else
        {
            printf("D");
        }
    }
    else
    {
        printf("E");
    }
    printf("F");
    return 0;
}
```
