

Assignment 8

11 March 2011

due Thursday 24 March at 01:00 AM

This program will use loops to print a simple calendar. It begins by asking the user how many days in the month, and the start day (so we don't have to figure that out from the month and year).

Here are some sample runs:

```
Enter number of days in month: 30
Enter start day (0=Sun, 1=Mon, ..., 6=Sat): 4
Sun Mon Tue Wed Thu Fri Sat
          1  2  3
  4  5  6  7  8  9 10
11 12 13 14 15 16 17
18 19 20 21 22 23 24
25 26 27 28 29 30
```

```
Enter number of days in month: 31
Enter start day (0=Sun, 1=Mon, ..., 6=Sat): 0
Sun Mon Tue Wed Thu Fri Sat
  1  2  3  4  5  6  7
  8  9 10 11 12 13 14
15 16 17 18 19 20 21
22 23 24 25 26 27 28
29 30 31
```

```
Enter number of days in month: 28
Enter start day (0=Sun, 1=Mon, ..., 6=Sat): 6
Sun Mon Tue Wed Thu Fri Sat
          1
  2  3  4  5  6  7  8
  9 10 11 12 13 14 15
16 17 18 19 20 21 22
23 24 25 26 27 28
```
