

Check-in 4

Task

For this check-in, take what I did in class to introduce jQuery:

- jqdemo/jq.html
- jqdemo/jq.css
- jqdemo/jq.js

jQuery demo

I like to visit:

1. Norway
2. Japan
3. ~~California~~
4. New Mexico
5. Montréal

1 destination visited

Highlight with pure JS

Highlight with jQuery

Figure 1: jQuery demo page

and add one new button, labeled “Reset”. When pressed, the button should remove any cross-throughs on items, and set the count to “0 destinations visited”.

To do so, you should use the `.click()` callback technique in jQuery, and then `.removeClass("finished")` on the `` elements.
