

Milestone 7

due at midnight on Fri May 6 (125 points)

For this milestone, just finish your project! Determine what else your specific project needs to make a reasonable demo. Maybe that's the credit card check-out. Maybe it's better style or smoother navigation. Whatever you choose, make it as full-featured, bug-free, and clean-coded as you can.

I need to submit grades by Monday May 9, so nothing can be accepted after that date!
